

February 5, 2014

Lampasas River Partners,

I hope this New Year finds you all well. We will have a Partnership meeting on Thursday, February 20th from 6 p.m. to 8:00 p.m. at the Lampasas County Farm Bureau Building. The Farm Bureau Building is located at 1793 U.S. Hwy 281 in Lampasas.

Texas A&M AgriLife Research recently signed contracts with the Texas Institute for Applied Environmental Research, from Tarleton State University to begin collecting regular surface water quality samples to beef up the Lampasas River water quality database. The good folks from TIAER will be at our meeting to provide an overview of the selected sites and more details about the project.

Travis Tidwell with Meadows Center for Water and the Environment, from Texas State University will also present an overview of what a stakeholder volunteer water quality monitoring program can offer the Partnership.

I have attached an agenda for our Partnership meeting. ***Please feel free to share with your neighbors and anyone you think might be interested.***

As always, please call me at 254.774.6008 or email lprcin@brc.tamus.edu if you have any questions. I look forward to seeing you at our meeting.

Sincerely,
Lisa Prcin
Lampasas River Watershed Coordinator
